

VOLUNTEERS WANTED!

Knee Study

Have you had an ACL reconstruction 5-10 years ago?

You may be eligible to participate in a project investigating knee function in people with an anterior cruciate ligament (ACL) reconstruction.

WHAT WILL YOU BE ASKED TO DO?

- Attend the University of Melbourne for an examination of your knee including functional (hopping, step downs), biomechanical (3D gait analysis) and effect of knee brace evaluation.
- Attend a session for an x-ray of your knee at no cost to you

You will not be eligible if:
you have contraindications to x-ray
you are pregnant, or if you are breastfeeding
